

TERMS AND CONDITIONS OF PURCHASES

1. Active-PCB Solutions reserves the right of final approval of product, procedures, processes, and equipment.
2. All special processes required by this purchase order must be performed by qualified personnel.
3. Active-PCB Solutions reserves the right to review and approve the Vendors Quality Management System. Standard QMS requirements include:
 - 3.1. Vendors providing special processing must maintain a system for validating processes similar to that of a NADCAP program, or other system as required by this purchase order.
 - 3.2. Customer directed sources must operate in accordance with approved specifications and standards as dictated and controlled by the customer in question.
 - 3.3. Suppliers initially approved for use via Certification (ISO, AS9100, ISO 17025, AS9120, etc.) must notify Active-PCB Solutions of any changes to that certification.
4. The Vendor shall maintain the proper identification and revision status specifications, drawings, process requirements, inspection/verification instructions and other relevant technical data.
5. Active-PCB Solutions reserves the right to approve or specify any designs, tests, inspection plans, verifications, use of statistical techniques for product acceptance, and any applicable critical items, including key characteristics.
6. Active-PCB Solutions reserves the right to designate requirements for test specimens for design approval, inspection/verification, investigation or auditing.
7. The vendor is required to:
 - 7.1. Notify Active-PCB Solutions of nonconforming product immediately upon discovery.
 - 7.2. Obtain Active-PCB Solutions approval for nonconforming product disposition.
 - 7.3. Notify Active-PCB Solutions of changes in product and/or process, changes of suppliers, and changes of manufacturing facility locations.
 - 7.4. Flow down to the supply chain the applicable requirements including customer requirements.
 - 7.5. Ensuring that persons are aware of:
 - Their contribution to product or service conformity;
 - Their contribution to product safety;
 - The importance of ethical behaviour.
1. The Vendor is required to retain all records associated with the purchase order as required by contract.
2. Active-PCB Solutions reserves the right of access by our representatives, our customers, and any regulatory authorities to the applicable areas of all facilities, at any level of the supply chain, involved in the order and to all applicable records.
3. All Vendors providing calibration services must be certified to ISO17025 (or equivalent). All calibration certificates must identify standards used.
4. Conflict materials – it is our expectation that our suppliers (and their suppliers) acquire minerals only from responsible sources and should this expectation not be met, Active-PCB Solutions must be informed of purchased parts that are affected by this.
5. Counterfeit material detection/avoidance - The Supplier shall maintain a Counterfeit Item risk mitigation process internally and with its suppliers. The Supplier shall notify Active-PCB Solutions if items required to satisfy this order cannot be procured from these sources. The Supplier must present complete and compelling support for its request to procure from sources other than OEMs or OCMs or their Authorized Distributors.
